***Allowable Subject Matter***

1. Claims 1-4, 6, 8, 10-17, 19-24 and 28-29 are allowed.
2. The following is an examiner's statement of reasons for allowance: In response to remarks and claim amendments made in Applicant's Amendment filed on 07/20/2007, Applicant's argument is persuasive. **In claim 1**, applicant states that the limitation "the protrusion including a rib which extends generally parallel with longitudinal axis of the bore, the rib including first and second side surfaces which connect an outer surface of the protrusion with a side wall of the bore." This limitation, in conjunction with other limitation as claimed in the claim 1, was neither found to be disclosed, nor suggested by the prior art. **Claims 2-4, 6, 10, 14-15 and 29** depend on the claim 1. In **claim 8**, applicant states the limitation "first and second side surfaces which connect the outer surface of the protrusion with a side wall of the bore, at least one of the outer surface and the first and second side surfaces has a taper toward an end of the bore " which is opposite to a fixing element receiving opening of the bore." This limitation, in conjunction with other claimed limitation of the claim 8, was neither found to be disclosed in the cited references, nor suggestion by the prior art. **Claims 11, 13 and 28** depend on the claim 8. **In claim 12**, states that the limitation "the protrusion subtends an angle from a longitudinal axis of the bore of at least 10 degrees." This limitation, in conjunction with the other limitation of the claim 12, was neither found to be disclosed in the cited references, nor suggested by the prior art. **In claim 16**, (similar with **claim 22**) applicant states that the limitation "the projection subtending an angle of less than about 30 degrees of a circle defined by the bore and comprising a rib which extends generally

parallel with a longitudinal axis of the bore." This limitation, in conjunction with the other limitation as claimed of the claim 16, was neither found to be disclosed, nor suggested by the prior art. **Claims 17, 19-22 and 23-24** depend on the claim 16. Amended claims have been considered and upon conclusion of a comprehensive search of the prior art, the office indicates that the claims, as amended, are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Response to Arguments***

In response to remarks and claim amendments made in Applicant's Amendment filed on 07/20/2007, Applicant's argument is persuasive. Examiner is acknowledged about the amended claims. Claim 1 is allowance due to incorporate with an objected claim 9 in previously final Office Action mailing on 4/30/2007. Claim 8 is allowed from the previously final Office Action. Claim 12, which was considered to contain allowable subject matter, has been placed in independent form, as indicated from the previously final Office Action. Claim 16 has been amended to attend to the objection and to incorporate subject matter of dependent objected claim 22.
